

Short Curriculum Vitae

Prof. Dr. rer. nat. Andreas Leson

Vice director and head of department PVD- and Nanotechnology

Fraunhofer Institute for Material and Beam Technology (IWS)

Winterbergstr. 28, 01277 Dresden, Germany

www.iws.fraunhofer.de

Andreas Leson studied physics and received his PhD in experimental physics from the University of Münster in 1986. Afterwards he held positions at the Krupp research institute in Essen as well as at the VDI, Düsseldorf. In 1997 he joined the Fraunhofer Institute for Material and Beam Technology in Dresden. Currently he is the vice director of the institute as well as head of the department “PVD- and Nanotechnology”. Furthermore he has a professorship and gives lectures on nanotechnology and thin film technology at the Technical University of Dresden.

Currently he is member of the board of the European Society of Thin Films as well as board member of the VDI-Society Materials Engineering and the Organic Electronics Saxony. In addition Andreas Leson presently acts as the spokesman of the initiative “Nano in Germany”.
